

Allergy table

Our suppliers and kitchens handle numerous ingredients and allergens. Whilst we have strict controls in place to reduce the risk of contamination, unfortunately, it is not possible for us to guarantee that our dishes will be 100% allergen or contamination-free.

- The majority of items on our menu are gluten-free.
- All the food at Pho District is freshly made by our kitchen staff, with the exception of some desserts and bottled tables sauces.
- Pho District dish descriptions don't always mention every single ingredient, so please check our allergen tables if you have any allergies.
- Our allergen information covers the 14 allergens specified by the Food Information Regulations.
- Allergens contained within our condiments & extra toppings are not included in this information.
- Our fried items are cooked in the fryer with other gluten-containing ingredients.

Finally please note our restaurant teams do not hold information on any other allergens and due to the seriousness of allergies and food intolerances our restaurant teams will not be able to help select dishes. If you suffer from an allergy that is not covered in our allergen menu then please contact customer services in advance of your visit and our food team will help you choose suitable dishes.
